Nanofabrication

Invited speakers:

- **Carmine Granata**, National Research Council, Italy
Nanostructured superconductive sensors based on quantum interference effect for high sensitive nanoscale applications
- **Manuel Gaudon**, Université de Bordeaux, ICMCB-CNRS, France
Inorganic oxide nanoparticles : influence of the crystalline size on the optical properties
- **Mohd Rafie Johan**, University of Malaya, Malaysia
Self Assembly Silver Nanoparticles-liquid crystal Metamaterials
- **Nicolai Moldovan**, Advanced Diamond Technologies, USA
Nanofabrication with Ultra-Nanocrystalline Diamond
- **Yung-Chun Lee**, National Cheng Kung University, Taiwan
Soft Photomask Lithography and Its Applications in Light-Emitting Diode (LED) Industry
